PROFESSIONAL SUMMARY

Software Developer with 3 years of professional experience building scalable, high-performance web applications using **JavaScript**, **React.js**, **Node.js**, **Express.js**, and **Python**. Proven track record of crafting highly responsive user interfaces, designing optimized **MySQL** relational databases, and engineering secure RESTful APIs.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, SQL, HTML5, CSS3

Frameworks & Libraries: React.js, Node.js, Express.js, Redux, Context API, Hooks

Databases: MySQL, Query Optimization, CRUD Operations, Relational Database Management (RDBMS)

Authentication & Security: JSON Web Tokens (JWT), Bcrypt.js, Role-Based Access Control (RBAC)

Tools: Git, Bitbucket, Postman, VS Code

PROFESSIONAL EXPERIENCE

Software Developer | Vensyx Data Solutions Pvt. Ltd. - Hyderabad (Remote) | June 2025 - July 2026

- Built a reusable frontend component library in **React.js**, streamlining codebase modularity and accelerating delivery of future features by 25%.
- Root-caused and resolved recurring JWT authentication and third-party API integration failures via **Postman**, increasing core system uptime by 35%.
- Spearheaded pair debugging sessions and mentored 3 juniors engineers, successfully reducing recurring bugs by 15% across team Git repositories.

Web Developer | Vensyx Data Solutions Pvt. Ltd. - Hyderabad (Remote) | March 2024 - May 2025

- Developed full-stack features using **React.js**, **Node.js** and **Express.js** to adapt frontend views to production architecture standards.
- Migrated cross-browser visual bugs by establishing a shared layout component structure with Material UI, decreasing user-reported layout issues.
- Structured safe RESTful APIs by deploying **JWT authentication** and strict Role-Based Access Control (RBAC), blocking unauthorized data exposure.

PROJECTS

AI-Powered Language Learning Platform | React.js, Node.js, Express.js, Python, MySQL, JWT

- Deployed a structured learning web application using **React.js** to enable seamless course progression tracking for active users.
- Architected secure backend APIs using **Node.js** and **Express.js** to manage lessons deployment, access rules, and system logins.
- Integrated **Python** scripts alongside Azure Text-To-Speech and OpenAI Whisper APIs to handle back-end voice processing and audio analysis.

- Created interactive practice modules utilizing Read, Type, Pick and Arrange features to drive personalized user learning tracks.

Laundry Service Management Platform | React.js, Node.js, Express.js, MySQL, Razor pay, Google Maps

- Constructed an end-to-end service dashboard enabling clients to purchase memberships, manage carts, and track active orders.
- Engineered an operations command board for supervisors to instantly monitor real-time inventory counts and employee updates.
- Implemented Razor pay for encrypted payment processing and integrated Google Maps API for real-time location logistics tracking.
- Refactored integration endpoints between the **React** frontend and **MySQL** database, boosting total transactional request speeds by 30%.

EDUCATION

Bachelor of Technology (B-Tech) in Mechanical Engineering

Madanapalle Institute of Technology & Science - Madanapalle, Andhra Pradesh | Graduation Year: 2022

AWARDS & RECOGNITION

- **Star Performer Award:** Earned for consistency in resolving high-priority production bugs and maintaining platform reliability metrics.
- **Best Team Collaboration:** Awarded for stellar collaborative support across UI/UX and QA engineering scopes during tightly scheduled sprint releases.
